Jeff the historic animas database is a mess. Please stay on top of the data we collect. It doesn't require knowledge of the site to know that when coordinates are missing they need to be found and put in. Many other errors and the queries are unclear.

**Subject:** Upper Animas - Published

Any samples and results that were collected due to the Gold King situation have been removed from this database; START is handling this data. Also a FIELD DATA query has been added; it will pull up-to-date field data.
